

**Name of service/organisation:**

**Ellerslie Child Development Centre** Calderdale and Huddersfield  
NHS Foundation Trust.

**Description:**

The child development centre is part of Calderdale and Huddersfield NHS Foundation Trust and is based on the site of Princess Royal Community Health Centre. The centre is informal and relaxed providing a child friendly therapeutic environment. Referrals are accepted from paediatricians and other health professionals for pre-school children who have developmental difficulties/disabilities. Children are seen by the child development team for assessment and on going therapy.

As a team of professionals we aim to provide practical help and support for the child and family. We work with other agencies and signpost families to ensure holistic support is accessible. Our aim as a team is to work in partnership with child, family and other agencies to provide opportunity for each child to reach their full potential.

**Client group intended for:**

Children with developmental difficulties/disabilities.

Pre-school children receive the service provided by the child development team, which comprises of Team Manager, Developmental Play Specialists, Physiotherapist, Occupational Therapist, and Speech and Language Therapist. Older children continue to be seen in the consultant led developmental clinics held at Ellerslie.
