

Name of service/organisation:

Locala Dental Services

Description: Our Dental Services have been specifically designed for adults and children with special needs who can't be seen within the general dental service. We also provide emergency care for unregistered children up to their 16th birthday.

We also provide the following services:

- Inhalation sedation in central clinics
- Home visits for housebound patients

General anaesthetics for dental treatment and extractions are carried out at local hospitals and are for certain patient groups only.

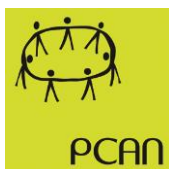

All our premises are fully accessible for patients with disabilities.

Intended client group: Categories of patients accepted:

- Full routine care for children and adults with special/additional needs, who cannot receive appropriate care in the General Dental Service – usually by referral from General Dental Practitioner / General Medical Practitioner/healthcare professional. These special/additional needs may include medical conditions or medication impacting on dental treatment, learning difficulties, behavioural management problems and mental health conditions.
- Hospital-based dental extraction under general anaesthesia service for children (up to their 16th birthday)
- Hospital-based dental treatment service for patients with special/additional needs, who require their care under general anaesthesia
- Dental treatment service using inhalation sedation
- Emergency-care for children (up to their 16th birthday) without a regular dentist who are in pain/ trauma, where no other alternative exists e.g. daytime emergency service.
